Subject: MLPAComments: support of MLPA plan 2

To Chair Philip Isenberg and Members of the MLPA Blue Ribbon Task Force:

My husband and I care deeply about the quality of the offshore ocean ecosystems and want to see protection established not only for the benefit of future generations but because it is the right thing to do.

As State Park volunteers, Friends of the Elephant Seal volunteers, and Piedras Blancas Light Station volunteers we come into contact with many people every week. The overwhelming majority want to see protection for our beautiful California coastline and for the offshore waters. We especially endorse significant protection, as offered under Plan 2, for the Piedras Blancas area. Reasons for doing so include the abundance of marine mammals found in that area, the ongoing marine research carried out in those waters, and the huge numbers of people attracted to that area who desire to observe wildlife in an undisturbed, natural setting.

Thank you for your hard work and dedication in working toward the establishment of a system of Marine Protected Areas off California.

Sincerely,
Carole Adams
Cambria
